

Touch Control Hifi Bluetooth™ Headphone with Multi-point Pairing and In-Built Mic

Designed with ultimate sound functionality, in-built mic, dual simultaneous mobile connectivity and a simple touch control interface, the bluTrend is a remarkable headphone that connects to smartphone, tablet, laptop or any audio device via Bluetooth™ for music playback or making phones call without the need of a wire. Smart touch control allows easy audio track control and volume adjustment. Make a new call, reject a call, end a call and even redial the last number, all at the touch of a button. In-built equalizer button for listeners' preference on any music mode such as – Rock, Pop, Classical, Jazz and Dance. The bluTrend racks up its features with superb noise suppression and echo cancellation using its advanced 6th Gen CVC™ CSR chipset for a crystal clear sound quality. bluTrend could also be used as a wired headphone while connected to your notebook using the provided micro-USB cable.
